NEW PRODUCT!

25ZVA HEAVY DUTY Z SWIVEL

Extremely hard wearing and robust
this is the sister to our 32ZVA Heavy Duty
Z Swivel!

Opening special until 31st October
\$499.00 NZD plus GST

We are proud to release our new product - **25ZVA Heavy Duty Z Swivel**, this is the sister product to our **32ZVA Heavy Duty Z Swivel**.

The 32ZVA and 25ZVA Swivels have been designed to be extremely hard wearing and robust. With a thicker body and stronger inner components these Swivels are a sure to deliver excellent results to the industry.

Our **opening special of \$499 nzd plus GST - this is available until 31.10.18** - be sure to get your orders in quick so you don't miss out!

Meet the team

In this issue we would like to introduce the team to you,

Michael Tippett (Mike) - Manager/Sales

Mike takes care of most of our Sales enquiries and also travels NZ to visit our Customers. If you have a query, quote or special job that you need done, Mike is your man, he enjoys solving Customer queries, and knows just about everyone! In his downtime he loves rugby, fishing and seeing the grandkids!

Louisa Tippett - Finance/Sales/Office

Louisa looks after all things finance - sending out invoices, paying accounts etc! Louisa also helps out with Sales, sending out quotes, answering Customer queries and solving any problems along the way. In her downtime she loves going to the movies, getting away from the city, beaches, seeing family and friends.

John & Marie Tippett - Designers, Support Roles

John and Marie are now enjoying the good life, even with a finger still on the pulse of the business they are largely enjoying retirement - what is supposed to be a restful time is not on their agenda - they seem to be busier than ever!

John and Marie are readily available to help out where needed, usually on site a couple of times per week.

Peter - CNC Operator/Engineer

Peter joined us in the recent couple of years, he is a very experienced CNC Operator - writing his own programs and sorting out the intricacies of working this very modern machine. Peter takes a lot of pride in his work and produces very good results. He is an asset to our business.

Some humour....
